Joe Smith: Taking versus Seeing: Making Your Photography More Creative and Artistic

Move away from just taking images and move to creating meaningful images for yourself and for others. Capturing emotive images requires proper techniques, the right equipment, and proper camera settings.

His presentation will include images on a variety of subjects to illustrate his points. He will use landscapes from Alaska, Monument Valley, Canyon de Chelly, birds and nature images from Texas and Africa, and possibly some macro images.

Joe is a well-known local photographer. He is a member of Houston Photochrome Club and several other Houston photography organizations. He is a Houston Audubon board member. He has won several Coastal Bend Wildlife Photo Contests and was a top Valley Land Fund Photographer. His images have also been published in a variety of publications.

2016-2017 Yearbook

The yearbook is available to be picked up. If you don't have your copy yet, see **Leslie Niemand**. If you would also like a PDF copy, let Leslie know via email.

Yearbook Thank You

It took a lot of members working behind the scenes to produce the club yearbook. **Gwen Kunz** was in charge of the yearbook and oversaw all aspects of its production. She chose the member, **Evelyn Sandler**, whose image was featured on the cover. Both Gwen and **Marcia Raskin** worked with Evelyn to select an image to fit the space, then developed the completed cover including the title placement and Marcia printed it.

During the year, **Henry Peterman** took pictures. This year, **Leslie Niemand** handled the production of the interior of the yearbook, collecting and organizing the information included and the images of members and printing it. Leslie and **John Niemand** assembled the book. **Bill Burychka** took the completed results and produced the PDF of it.

Thanks to you all.

Photographer Saying:

A good photograph is one that communicates a fact, touches the heart and leaves the viewer a changed person for having seen it. It is, in a word, effective.

Field Trip—April 22

High Island Spring Migration

Everyone plan to meet at the entrance to Boy Scout Woods (2089 5th St, High Island 77623) at 8:00 a.m. Travel time from Bayland Community Center is about 2 hours via I-10 OR 2.5 hours (plus ferry wait time) via I-45 and Galveston. Since the trip is some distance from Houston, it is suggested that you carpool.

The Houston Audubon operates these world renown birding sites. There is a day fee of \$8.00 or an optional season pass for \$30.00. Please be prepared to purchase one or the other at the kiosk at Boy Scout Woods. In addition to Boy Scout Woods, we can also visit Smith Oaks, the largest sanctuary at High Island and home to the Rookery. Here, egrets nest a few feet from birding blinds and alligators wait patiently. There are two other birding sanctuaries at High Island. If time permits, these may be included.

The St. Matthew's United Methodist Church in High Island (1308 Weeks Ave.) will sell delicious BBQ lunches every Saturday in April from 11 a.m. until the food is gone. Lunch includes BBQ and all the fixin's for \$12 per plate. You can also plan to bring your own picnic lunch. There are not many opportunities to buy lunch in High Island.

There will be a sign up sheet at the April competition meeting. Please plan to sign up for this trip or send me your information including cell phone (hccprojection@gmail.com) and whether you plan to pack a lunch or take advantage of the BBQ. You can reach me by cell phone or text. My cell phone is in the club yearbook. However, note that cell phone coverage could be spotty going to High Island.

More information on the High Island Birding Sanctuaries can be found at houstonaudubon.org/sanctuaries/high-island/

In addition to your camera, plan to bring a long lens (300mm equivalent or greater) if you have one, a tripod, your birding binoculars, bird field guides and insect spray.

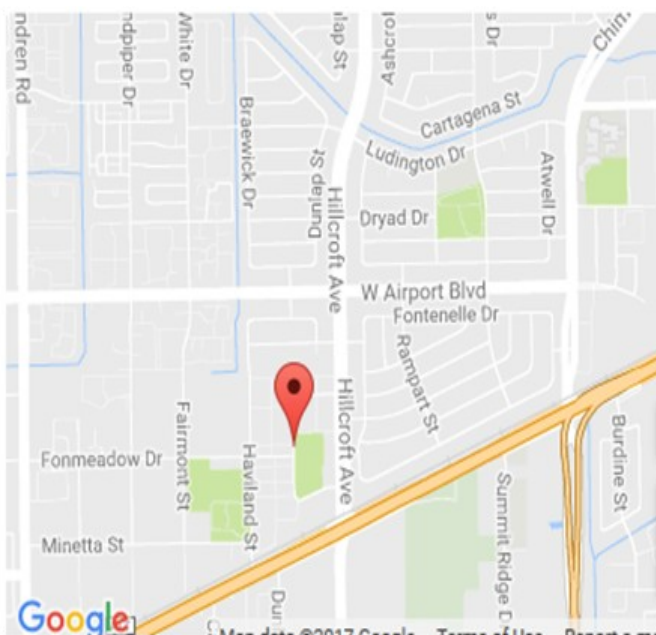

Cletus Lee, Field Trip Chair

Field Trip—April 29

Westbury Community Garden

Meet us between 8:00 a.m. and 12:00 in the garden. The photographic opportunities here are numerous. Flowers, vegetables, bees, other small insects and critters, even people are a possibility. There are 62 beds growing different vegetables and plants. Be sure to bring a macro or close-up lens. Tripods are allowed.

The garden is located at 12581 Dunlap in Houston, west of Hillcroft, between W. Airport and S. Main. From Hillcroft, turn west onto Alvarado, and proceed around the curve. The garden will be on your left. Turn into the garden and park where you can.
