

## Program—April 17

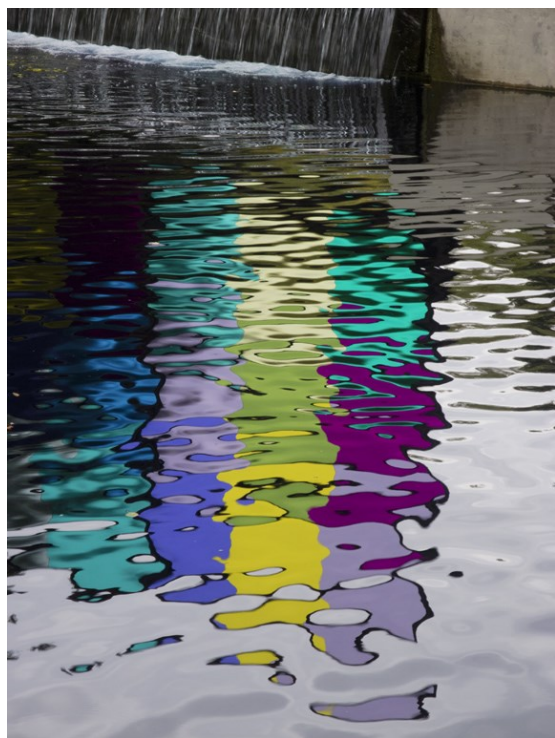

### Dion McInnis Painting With Light

No matter one's photo interests, painting with light opens the door to new and unique opportunities. (This is not writing with light.) The presentation provides an overview of ways to use painting with light with various subjects, a discussion of approaches using flashlights and other light sources, and a demonstration of techniques. Painting with light should be in every photographer's arsenal. And, the really cool thing is that no image can ever be replicated.

Dion is an author, photographer, and speaker. He is someone who is known and respected by many of our members. This is a presentation you won't want to miss.

See Dion's images at [PoetVision.com](http://PoetVision.com). Bring a camera and tripod to take photographs during his demonstration, if you want.
