Workshop —Bill Burychka

Photoshop / Lightroom Tips, Tricks and Techniques

6:30 By Video Conference

We've recently had presentations on Lightroom and Photoshop. **Now it's your turn.** Share a particular *tip* you've found useful in either Lightroom or Photoshop. Same for a *trick* you've picked up for those same programs. Or a *technique* you've developed, or adopted, for accomplishing a particular kind of processing objective. It can be a quick way to do something we all spend a lot of time on. It can be a way to fix something that some people might just give up on. Or it might be an inexpensive or free plugin that you've found that really works well doing something that otherwise is time consuming or impossible, and you'd be willing to demonstrate it.

As soon as you can, please send to me a brief description of what your T T or T does and a rough estimate of the time you think demonstrating it will take. Oh, and whether it is a Lightroom or Photoshop thing. If you're not sure your idea is pertinent or of interest to HCC members, send it to me anyway along with the question "Do you think this is a good idea?"

The sooner you send me your ideas the better. Please send your Tip, Trick, or Technique--or your question about it--to me. My email address is in the directory.
