## Program:

### 45 Camera RAW Tips in 45 Minutes

March 19 at 6:30 p.m. Online

In 45 in 45, you will learn 45 one-minuteish tips for effectively working with Camera RAW. From simple usability techniques, hidden menu and keyboard shortcuts, effective workflows and advanced settings and options, this session is a whirlwind of fun and quick ways to make you more effective in your image editing. I have no doubt that some of these might be classics you already use, but there will surely be new, easy and fun ways to approach your editing no matter what sort of images you're working with. You will learn how to better incorporate Camera Raw into your Photoshop and Lightroom workflows.

Instructor Daniel J Gregory is a photographer, mentor, and photo educator based just outside the town of Langley on Whidbey Island, Wa. He is a member of the core faculty at the Photographic Center Northwest in Seattle, Wa, where he teaches a variety of photographic subjects including fine art printing, color concepts and theory, portfolio creation, Photoshop, Lightroom, and a variety of analog photography courses.

(This is a purchased recorded video session, originally broadcasted at Photoshop Virtual Summit, late last year. It has been authorized by the author to be viewed by members of our Camera Club)

Ramiro Sanchez, Program Chair
